Use of Cookies

Cookie Agreement

The factory5.ai site (hereinafter referred to as the "Site") uses cookie cookies and similar technologies that allow you to collect the necessary information and statistics on visits to simplify the work with the site and conduct marketing activities. This information is such as: IP address, browser type and language, information about the Internet service provider, send and exit pages, information about the operating system, date and time of the visit. By using this website, you agree to the use of cookies in accordance with this notice regarding this type of file. If you do not agree that we use this type of file, then you must set your browser settings accordingly or not use the Site. We are not responsible for the use of cookies by third-party providers or search engines.

Information for Users

While viewing any page of the Site, the page itself is downloaded to your computer, as well as a small text file called "cookie". Many sites use these files because cookies allow you to do many useful things. For example, thanks to these files, site owners can determine whether a particular computer (and probably its User) has been on this site before. This occurs during a second visit to the site by checking the user's computer for the presence of a cookie from the last visit.

Cookies may be placed on your device by the administration of the Site (these cookies are called "own"). Some cookies may be placed on your device by other operators. These cookies are called third party cookies.

We and third parties may use cookies to find out when you visit the Site, how you interact with the content. Based on cookies, generalized and other information can be collected and used that is not related to the identification of individual users (for example, about the operating system, browser version and URL from which this page was navigated, including from an email or an advertisement) - thanks to this, we can provide you with more opportunities and analyze the routes of visiting sites, which serves as a tool for collecting generalized statistics on the use of the site for analytical research IAOD and helps us to optimize the site.

Cookie information

A cookie is a small amount of data, often containing a unique anonymous identifier sent to your browser by the site's computer and stored on your computer's hard drive. Each site can send its own cookies to your computer if your browser settings allow this. At the same time (in order to maintain the confidentiality of your data), your browser allows websites to access only your own cookies, but does not allow them to use the same cookies left by other sites.

Cookies store information about your preferences on the Internet. Users can configure their computers to automatically accept all cookies, or warn each time the site tries to write their cookies to the user's hard drive, or not accept any cookies at all. The latter option means that some personal services cannot be provided to users, and also that users who choose such settings will not be able to get full access to all sections of the Site.

Each browser is unique, so refer to the help function of your browser to find out how to set up cookies.

If you configured your computer to completely prohibit the acceptance of cookies, you can still visit the Site anonymously until you want to use one of the services on the site.

Cookie expiration date

Some cookies are valid from the moment you enter the site until the end of this particular browser session. When you close the browser, these files become unnecessary and are automatically deleted. These cookies are called "session cookies."

Some cookies are stored on the device and between sessions in the browser - they are not deleted after the browser is closed. These cookies are called persistent cookies. The persistence of persistent cookies on a device varies for different cookies. We and other companies use persistent cookies for various purposes: for example, to determine how often you visit our sites or how often you return to them, how the nature of the use of the Site changes over time.

Cookies Used on the Site:

Own cookies of factory5.ai sites. These files are necessary for the correct operation of the Site.

Google analytics. These cookies are used to collect information about how visitors use our site. We use this information to report and improve our site. Cookies collect information in anonymous form, including the number of website visitors who came to us from other pages that they visited. Google will use this information to evaluate your use of the website, compile reports on website activity for operators and provide other services related to the operation of the website and use of the Internet. Google may also transfer this information to third parties if required by law, or if third parties process information on behalf of Google. Google will not associate your IP address with other data held by Google. You can refuse the use of cookies by selecting the appropriate settings in your browser, but keep in mind that if you do this, you will not be able to use all the functions of this website. By using this site, you consent to the processing of your data by Google in the manner and for the purposes indicated above. In addition, you can prevent Google from collecting and using data (cookies and IP addresses) by downloading and installing browser extensions from http://www.google.com/analytics/terms/gb.html (Terms of Service and Google Analytics privacy policy).

Yandex.Metrica. The program for tracking and web analytics from the company YANDEX LLC (Russian Federation, 119021, Moscow, Lev Tolstoy St., 16, YANDEX LLC). With its help, anonymous data about visits is collected in order to better understand their behavior and improve the site. For more information about data collection by the Yandex.Metrica service, see the Yandex.Metrica Terms of Use service at http://legal.yandex.ru/metrica_termsofuse/, as well as the Personal Information Privacy Policy of this company at address: http://legal.yandex.ru/confidential/

Cookie management
Setting your web browser is an effective way to manage cookies. You can make one of the following decisions:

• allow the use of all cookies integrated into the pages. Note: on the one hand, access to these cookies is only available to their publishers; on the other hand, this process is not irreversible, and subsequently you can always delete these cookies (the procedure for managing cookies differs depending on the browser used; please refer to the relevant instructions):

• block cookies on your device. In this case, we must warn that navigation on the site will be difficult. Some features require the use of cookies (for example, to recognize your operating system and preferred language). Therefore, we are not responsible for the inconvenience caused by the improper operation of our services due to the disconnection of cookies;

• enable the use of cookies on demand in each case;

• accept or decline cookies depending on their publisher.

Links to third-party sites

We are not responsible for the content, methods of collecting and processing information by third-party sites, including sites, links to which can be published on our site. Please read the privacy policy of the resources you visit before submitting your data.
